To whom it may concern

I hereby confirm that Dr Fatih Özkaya has completed a robotic scientific fellowship from 15<sup>th</sup> of August till 30<sup>th</sup> of September at the OLV Hospital, Moorselbaan 164, 9300 Aalst, Belgium.

During his stay he has observed and assisted several operations with the Da Vinci Robotic done in our institution.

- Robot-assisted prostatectomy
- Robot-assisted lymphadenectomy
- Robot-assisted pyeloplasty
- Robot-assisted partial nephrectomy
- Robot-assisted cystectomy with intracorporeal diversion, etc....

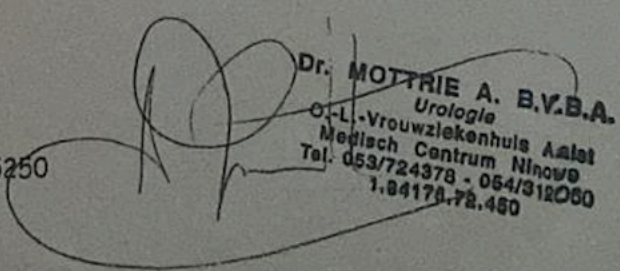

He has made an excellent impression not only as a physician but also as scientist and human person.

Also with the co-workers like doctors, students, co-assistants and nursery staff he has been appreciated and respected.

He has done scientific work in this domain.

He has also been mentoring other young urologist at the ORSI Training Center as a hands-on trainer (wet lab: animal models) in robotic surgery and single site robotic surgery.

Prof. Dr. A. Mottrie  
Head of the Urological Department of the OLV Hospital, Aalst  
CEO of the OLV Vattikuti Robotic Surgery Institute  
President of the EAU Robotic Urology Society (ERUS)  
President of the Society of Robotic Surgeons (SRS)  
Editor of "Surgery in Motion" of European Urology  
OLV Ziekenhuis Aalst
